CONTENTS

01

About us

Deep industry roots and extensive factory experience drive our manufacturing strength.

02

Full-set automatic production line

Backed by a complete automated production line, we provide seamless turnkey solutions.

03

Product series

Rich texture and color options meet diverse home-design requirements.

04

Customer Interaction

Thank you for the shared opportunities. Let's grow and progress together, achieving a win-win outcome.

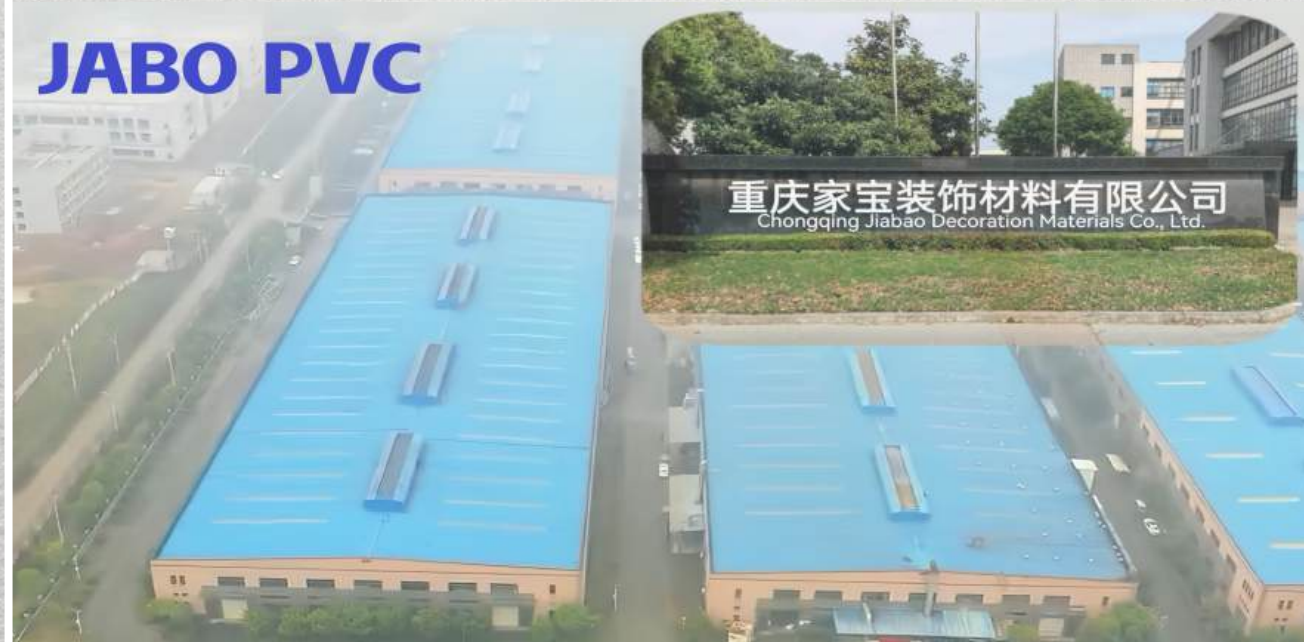

05

Application cases

Our products are widely used in diverse fields, including interior decoration, home furnishing, commercial spaces, architecture, and more.

Contact us

Looking forward to partnering with you to open a new chapter.

01 Time-honored Industrial Expertise

Established in 2009, we are dedicated to the development, production, and sale of PVC films, backed by a full-set production system.

02 World-Class Smart Manufacturing Base

We have an 11,000 m² modern production base with fully automatic lines: five-roll calender, printing, laminating, coating and slitting machines. We provide turnkey solutions, daily output up to 180,000 meters with stable quality.

03 Rooted in PVC Industry

Our research and development team consists of senior engineers. We focus on environmental friendliness and functional innovation, continuously optimizing product processes and customized application solutions.

04 Brand Commitment with Global Vision

We uphold quality-first principles, deliver stable and reliable PVC film products to worldwide customers, and grow together with global partners.

About JABO

JABO PVC

JABO PVC Film Production Line

🌱 Raw materials

Our raw materials are formulated with eco-friendly ingredients, meeting national E0 level and higher standards. The products are odor-free and free of harmful volatile substances, making them safe for immediate move-in and protecting your family's respiratory health.

Five-roll calender

Our five-roll calender, introduced from Taiwan, ensures consistent thickness and a uniform surface for our PVC decorative films. It supports mass production while maintaining precise performance, laying a solid foundation for high-quality finished films.

JABO PVC Film Production Line

JABO PVC Film Production Line

Embossing roller

High-precision embossing rollers create rich surface textures.

Printing machines

We are equipped with five printing machines, offering more than a thousand color options. We can provide sample supply and customized production upon request.

Finished PVC Film Warehouse

Our finished PVC film warehouse maintains extensive inventory to ensure fast delivery.

Offline Stores & Warehouse

Overseas warehouse

We have set up warehouses in multiple countries including Vietnam, Russia and other regions.

Domestic showrooms

Showrooms are located across China in Xinjiang, Chengdu, Fujian, Zhengzhou and more.

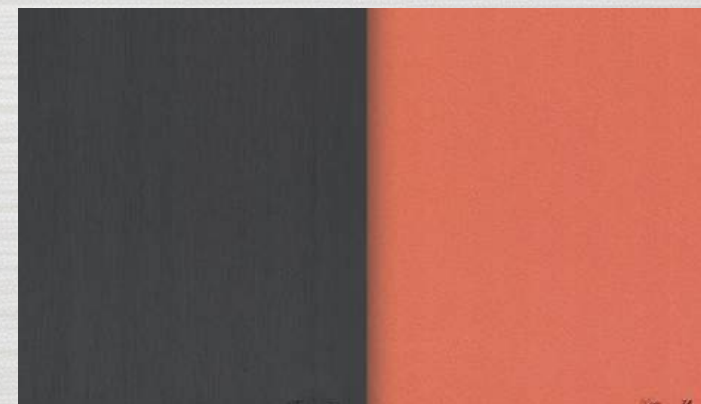

PVC Film Series: High-Gloss

The mirror-like high-gloss surface delivers brilliant star-like sparkle. It infuses your space with a unique luster and an undeniably luxurious aesthetic.

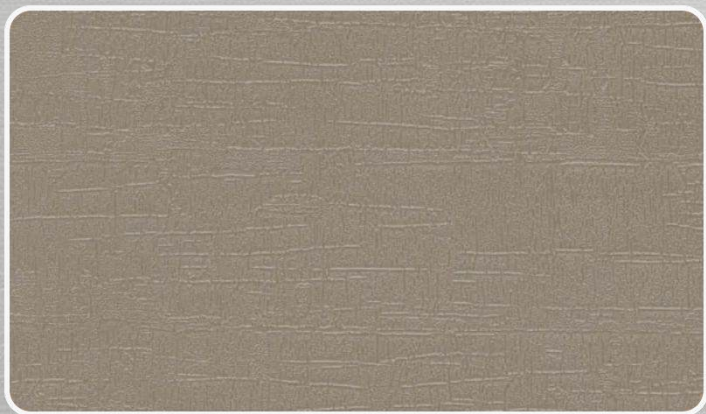

PVC Film Series: Soft-Touch

Soft-touch surface with anti-fingerprint and stain-resistant properties. Offers a velvety, silky texture that elevates modern, elegant interiors.

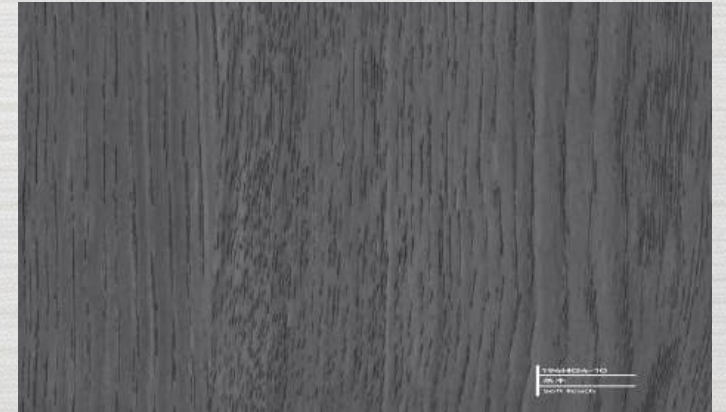

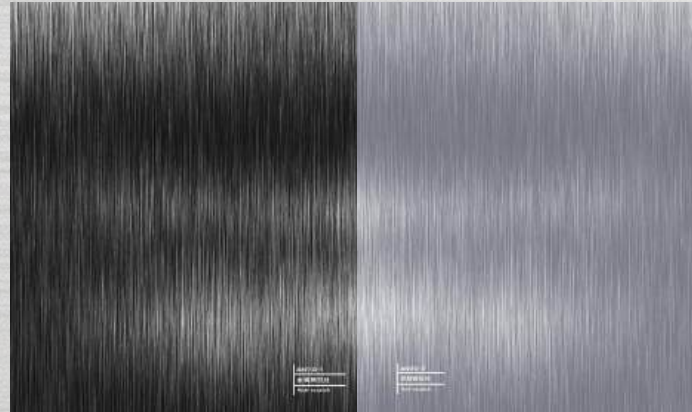

UV Solid Color Soft-Touch

PVC Film Series: Soft-Touch

PVC Film Series: Printed Texture

Wood grain embodies contemporary elegance, stone grain captures natural texture, and metallic grain radiates brilliance. With its delicate layers and authentic tactile feel, it brings a high-end minimalist aesthetic to any space.

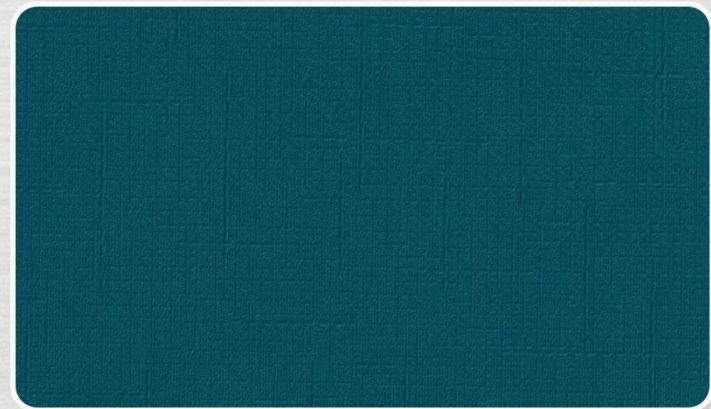

Marble grain

Metallic grain

Wood grain

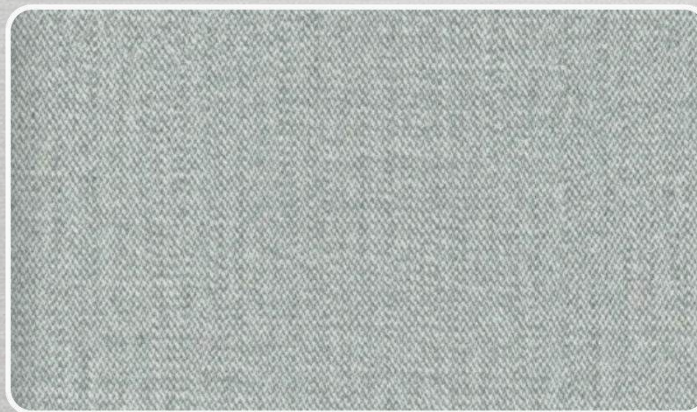

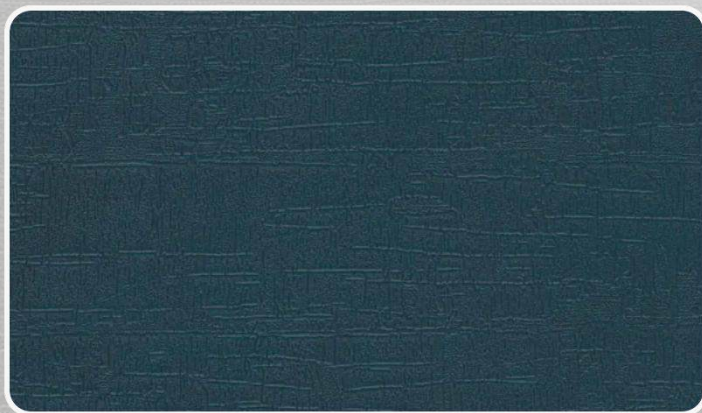

Product Series: Printed Texture

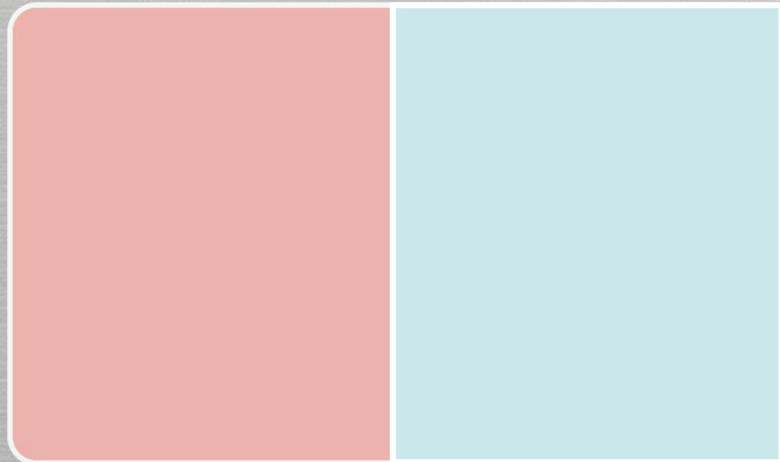

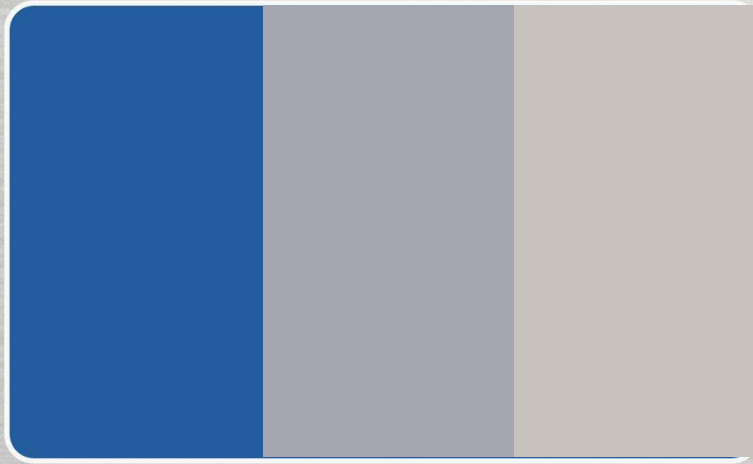

Linen fabric texture

PVC Film Series: 3D-Printed

PVC Film Series: Matte & Semi-Matte

A refined matte finish, creating a soothing atmosphere for minimalist, serene living spaces.

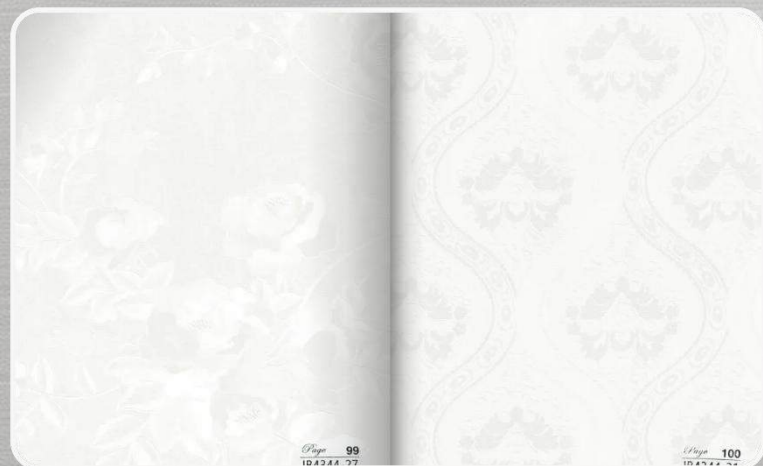

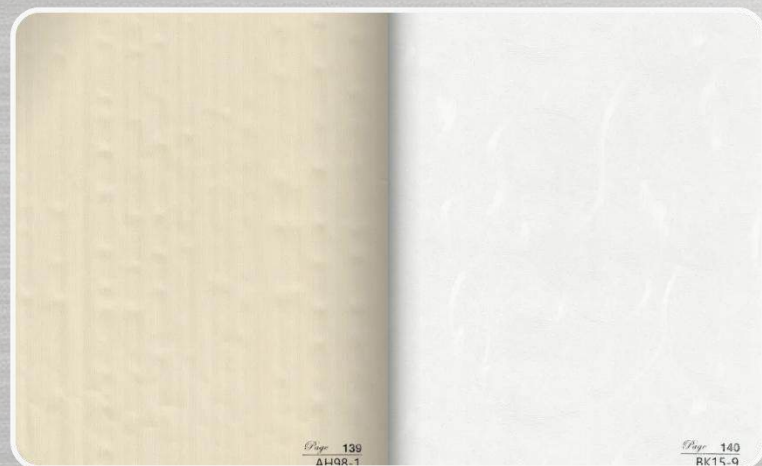

Solid-color Matte

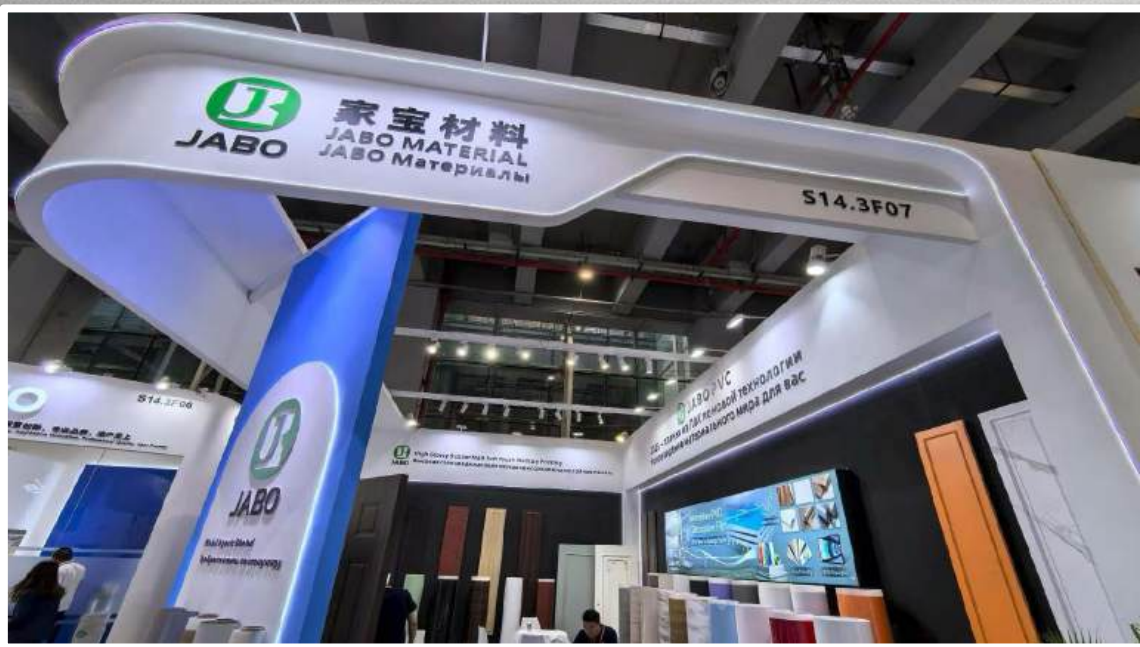

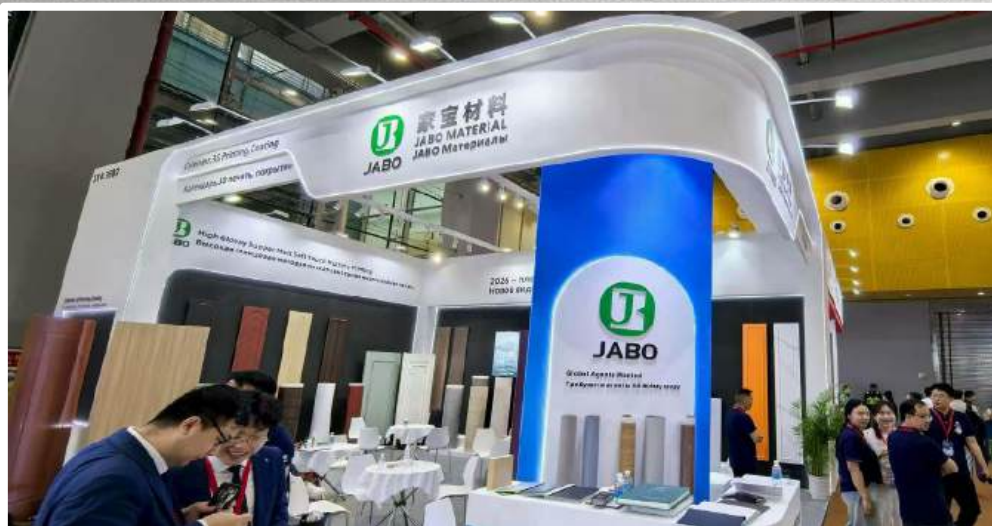

Matte Wood Grain

PVC Film Series: Door & Wall Film

Excellent flexibility allows for seamless matching of doors and wall panels, creating a cohesive whole-house design.
